CHS is the Canadian Distributor of the following vendors:

We are thrilled to launch the 1st issue of our new quarterly newsletter for our NICU customers, 'NICU News'!

Canadian Hospital Specialties (CHS) is a national specialty distributor of NICU products across Canada. Some of the key products we deliver to the NICU include NeoBLUE Phototherapy, Snappies Breast Milk Storage, CME Feeding Pumps and MED-RX® Enteral Safety Feeding system, to name a few.

In our NICU News, you can look forward to information on new innovative products, clinical studies and promotions that we would like to share with our valued NICU customers.

We hope you will find this newsletter informative and we welcome any suggestions or feedback for future editions!

Your CHS Team

## Free Education Webinar

**Delivering Higher-Order Multiples, Best Practices and a Culture of Safety**

**Dandle-LION Medical invites you to an online webinar with 1.0 FREE nursing CE credit**

This webinar will provide an overview of the potentially better practices for the delivery and care of high-order multiple births. The presenters will discuss one center's experience with a high-order multiple delivery including care management and outcomes and how this approach was subsequently utilized at another center to successfully care for another high-order multiple birth experience. The hope is to share these techniques for other center's use.

When: Friday April 5, 2013  
Time: 9:00am PST / 12:00PM EST

## Playful Foaming Wash

### Safe, Non-Toxic Cleanser for Babies

Dandle-LION Medical has partnered with Episencial, a high quality skin care company, to bring the first affordable, non-toxic, all natural baby wash to hospitalized babies.

Our gentle and hydrating cleanser will not irritate eyes or sensitive places naturally! And the mild and fresh scent comes from organic orange extract, not fragrance from chemical formulations.

#### Playful Foaming Wash Features:

- It is a mild cleanser, not a detergent, that is preservative-free, fragrance-free, non-irritating with a mild pH
- It is made from carefully chosen ingredients with a long history of safety like organic thyme oil, fruit extracts and calendula
- It keeps the tears away with gentle sugar-based surfactants, not topical anesthetics
- It is free from all the "bad stuff" known to be harmful to babies (fragrance, parabens, phenoxyethanol, SLS and Q-15)
- It is manufactured in a pharmaceutical laboratory using solar power
- It is packaged in recycled and sustainable materials that are phthalate and BPA free
